Keeping Dartmoor ponies on Haytor Down.

So are you keeping ponies on Haytor Down?

The ponies were inherited from my mother, mother and father, they set up the Middlecott ponies in the late '50s, early '60s, and they wished to use their rights and wanted to keep the Dartmoor Pony actually on Haytor, because there weren't any running Haytor from the land associated with Haytor at that time, and they just felt that it was important for Haytor to have their own ponies.
