

## **John Weir**

### **The view from Haytor Rock.**

Here from the base of Haytor Rocks you can see why many people visit this area, not just for the wonderful 360° views, and in fact a lot of the views actually take in where people from, there's Newton Abbot, Teignmouth, the Teign estuary, they can see for miles and sometimes with binoculars you can actually see where you live. But they also come to experience this very extensive landscape, you can stride off in any direction, you can go for a short walk, you can go for a long walk, you can watch and listen to wildlife and you can discover fascinating industrial archaeology, in fact there's something here for everyone.
