### **Yarner Wood.**

Here we are in Yarner Wood, about a mile away from Haytor Down and we're looking across the woodland to the north west, looking across the Yarner valley, we've got the estate around Yarner itself up on the left there, you can see those fields on the edge of the Down, and in front of us we've got Yarner Wood. Now Yarner Wood was originally part of the Yarner Estate and Yarner we know was a medieval hunting lodge from the time of Queen Elizabeth, we know that there's been a woodland here since at least the year 1600 and certainly probably before that.
