

**Rob Steemson**

**Visitor services in Postbridge.**

*Here in the car park at Postbridge we've got one of the four Dartmoor National Park Authority Information Centres which is the first port of call for many visitors to Postbridge, what services can people expect when they come here?*

We've got the Information Centre, a toilet block, a large car park, we tenant the land around the bridge and we've put in some good link paths on the land that we tenant and obviously we've created some fairly good paths, the bridle ways and footpaths in this area are pretty well looked after, and then that's supported obviously by the local, we've got the local shop, Post Office and garage which is still surviving out here, we've got a local pub, we've got two or three hotels and other bed and breakfast establishments, you've got a farm camp site and bed and breakfast establishment.
