The Church of St Gabriel

Now of course, its quite a small community here, with a village hall and a church, St Gabriel's Church, which was built in 1868 and licensed in the following year, it wasn't actually consecrated until 1934. It was originally a Chapel of Ease of Lydford Parish because all the moor was part of Lydford parish, originally, but it's been re-organised and then it became a church under Princetown when Princetown became an ecclesiastical parish.
